

Measure and
Validate automatically
your parts at
the workshop

ISI ROB Mobile inspection station automated contactless

ISI
ROB

Designed to work in the workshop and managed by production personnel..

Plug&Play in 3 steps: select reference, position part and execute measurement.

The software validates the part with the GO / NO GO message.

Automatic and network accessible 3D reports, SPC data control.

Programming of new references agile, simple and intuitive.

Compact and robust. Small and medium pieces up to 100 kg in weight.

Maximum inspection volume: 600 x 600 x 750mm

Collaborative system, does not require perimeter security.

Portability, move the equipment where you need to perform the dimensional control.

Comprehensive after-sales service and maintenance guarantee.

METROMECA
INDUSTRIAL METROLOGY

Technical Characteristics

UR5 collaborative robot
with 850mm reach
Repeatability +/- 0.1 mm
IP54 protection

Scanning sensor
3D Creaform Handy
Precisión 0,025 mm
Measure 1,300.000 pnt/sg
Area 310 x 350 mm

Component Integration
robust on mobile cart.
Total weight: 240kg.

Work station with
processing capacity
of point clouds

Automation Software:
Agile 3D governs all peripherals
in a simple and intuitive way,
simplifies tasks and reduces
programming times. Includes
Polyworks Inspect, 3D metrology
software.

Maximum volume
of Inspection:
600 x 600 x 750mm

4 USB ports. HDMI.
Ethernet network port.
220 V power plug.
Emergency buttons.

Rotary table repeatability
 ± 2 arcsec, maximum weight 100
Kg

Intuitive user interface, allows
to measure with commands
simple on touch screen

Automation Metrology Software

AGILE 3D AUTOMATION METROLOGY

-  Platform for the automation of metrology processes.
-  Centralizes the programming of inspection equipment, movement and metrology software. Validación auto
-  Simple guided measurement sequences, executed by production personnel.
-  Automatic validation with GO / NO GO messages.
-  Simple, fast and intuitive programming of new references.
-  On-site 3D graphic reports, network sharing, SPC.
-  Different levels of training: production user and programming.

Versions depending on the scanning sensor

	 <p>IsiRob HBE</p>	 <p>IsiRob H7E</p>
Sensor	Handy Black Elite	Handy Scan 700 Elite
Accuracy sphere	0,025 mm	0,030 mm
Accuracy volumetric	0,020 + 0,040 mm/m	0,020 + 0,060 mm/m
Measurement speed	1,300.000 pnt/seg	480,000 pnt/seg
Laser	11 transverse blue lasers	7 transverse blue lasers
Mesh resolution	0,1 mm	0,2 mm
Laser class	2M (safe for eyes)	2M (safe for eyes)
Scan area	310 x 350 mm	275 x 250 mm
Depth of field	250 mm	250 mm
